

Floyd Witt Named to Wasatch Sheriff Post

Floyd Witt was named Sheriff of Wasatch County at a special meeting of the County Commissioners on Tuesday. Mr. Witt was selected after the Commissioners had reviewed several applicants.

The new sheriff will take over his duties with the experience of six years of deputy work behind him.

Mr. Witt is a life-long resident of Wasatch County. A graduate of Wasatch High School, he has also taken several courses in law enforcement work, including an FBI course. He is a First Aid Instructor for the Red Cross, Livestock Brand Inspector for the State of Utah for the past ten years and a District Commissioner on the Boy Scout Advancement Committee.

Mr. Witt's appointment will become effective on September 15. He replaces Eugene Payne who resigned as sheriff to accept a position as an instructor at the Wasatch High School.

Mr. Witt has indicated that he will employ former sheriff Payne on a limited part-time basis as deputy sheriff until he starts on his new budget on January 1, 1958. Mr. Payne will serve legal papers and do some night patrolling.

Mr. Witt states that the department will continue to enforce the law in the same outstanding pattern set by Sheriff Payne.

Mr. Witt is married to the former Wilma Street and the father of three children.

Deer Hunt Contest Promotion Planned By Chamber

The Wasatch High School Wasp football team will open their fall season this coming Friday as they motor to Lehi for a practice game. The first league game will be played with Morgan High School next Friday on the Wasp field at 6th and 1st East at 1:30 p. m.

Earwigs Becoming Serious Nuisance In Wasatch Co.

Radio

The European Earwig is a serious nuisance in County, Extension Agent Daniels, pointed out today. Community action is required to secure the most effective control of this pest, he stated. This is not possible, all people, a block or on several adjacent blocks should spray at the time. It is best not to leave untreated lots or areas. Earwigs move out from untreated places to reinfest areas where control is not maintained.

Sheriff Witt Will Run

Incumbent Sheriff Flyod L. Witt has filed for re-election on the Wasatch County Democratic Ticket.

Mr. Witt, who is a life-long resident of Wasatch County, lives with his wife and three children at 248 West 2nd North, Heber.

Born to a nearly Pioneer family, Witt was educated in Wasatch County School. He spent four years in the armed forces during World War II.

Mr. Witt has been working in law enforcement for the past 18 years. He is a graduate of the F.B.I. National Academy at Washington, D. C., and he is the only peace officer in this area to receive this extensive police schooling. Mr. Witt spent \$1,180.00 of his own personal funds in order to receive the police academy instruction.

Sheriff Witt is also a graduate of both the Wyoming Law Enforcement Academy and the Utah peace officer training school at Camp Williams.

Sheriff Witt is active in Boy Scouts and is presently "advanced chairman" of the Wasatch County Scouts. He is active in church and civic affairs.

"If re-elected Mr. Witt promises "continued enforcement to keep Wasatch County free of immorality and lawlessness to the best of my ability."

SHERIFF FLOYD WITT

Ex-Sheriff Recalls Early Years as a Lot Easier

By Blair Feulner
Tribune Correspondent

Floyd Witt
Years of Change

HEBER CITY — "Twenty-five years ago, if you suspected somebody of a crime, you just went out and arrested them and put them in jail.

"Now days," observed former Wasatch County Sheriff Floyd Witt who left office last week, "You can't even talk to a suspect until you have the evidence."

The third-longest serving sheriff in Utah, Mr. Witt's 22-year tenure ended Jan. 1, following an unsuccessful bid for a sixth term in office.

"I guess people just thought it was time for a change," he commented. The election also saw an incumbent county commissioner and justice of the peace go down to defeat.

Deputy Six Years

A deputy for six years before being appointed sheriff in 1952, Mr. Witt has seen a lot of changes since he started as a \$175 per month lawman.

"Law enforcement has become much more mechanized," he said, and rural peace officers have had to become more professional, shedding the "good old boy" image.

"With the rulings of the Warren Supreme Court, it became completely different—we had to become much more educated in law enforcement."

The kinds of problems faced by lawmen here have also changed as the demand for recreation has drawn more people to the forests and reservoirs of Wasatch County.

Fishing Opener a Problem

"On the big weekends, like fishing opener, we will get up to 50,000 people coming up here," said Mr. Witt. That meant more time had to be devoted to traffic control, fire fighting and search and rescue.

In addition, the hundreds of summer cabins that now line the dirt back roads of Wasatch County, have created headaches for lawmen because they are isolated and easy targets for vandals and burglars.

The increasing popularity of snowmobiles has compounded the problem because, he said, "Now they can go anywhere they want in the winter."

Vandalism, along with drugs and juvenile-related problems, is on the increase here, according to Mr. Witt. He blames a changing local economy for some of it.

"When I grew up everybody worked on the farm from the time they got up in the morning, they had chores to do."

Too Busy, Too Tired

That meant, he noted, that a teen-ager who worked on a farm was generally too busy and too tired to "go out and raise much hell."

Now teen-agers here have cars and Heber City's Main Street is crowded with adolescent traffic after dark.

"When I went to school, all you could do was go to the dances and the picture show. Now the kids can get in a car and be anywhere in an hour."

Mr. Witt also noted a difference in the type of crimes people were committing here, "We're getting somewhat of a harder element now.

"People used to drink a little beer on Saturday night, but we never had anybody hit over the head with beer bottles — they just used their fists."

But, allowing for that, the former sheriff thinks Wasatch County is still a good place to live.

"We're pretty non-violent, we don't have murders and rapes . . . overall, it's been a pretty darned good county to raise a family in," he concluded.

Took a risk and lost

Sheriff hunts new job

By Kris Radish

Nov 16, 1978

Deseret News correspondent

HEBER, Wasatch County — Floyd Witt says he is not bitter. He knows politics is risky. He took the risk and lost, that's all.

After 21 years as sheriff of Wasatch County, Witt is busy looking for another job. He lost his chance for re-election when he was defeated in September's primary.

"I don't feel good about it," Witt admits. "Sure I was surprised, but that's the risk when you are involved in politics — there never is a guarantee that next year you will be doing what you did this year."

Witt says he will miss his job, and after 27 years in law enforcement he is positive his life will take on some drastic changes.

"When you go to bed or plan a family outing there is never a guarantee that you won't have to rush off somewhere in a second," Witt says. "It's a 24-hour-a-day job."

Years ago, when his four children were growing up, Witt and his wife Wilma had planned a trip to the Salt Lake zoo.

"We planned and talked about it all summer," Witt says. "We started to go and we got to the Point of the Mountain and I had to race back to a fire," he remembered. "Things like that I won't miss."

Witt has seen the county and law enforcement go through lots of changes. While Wasatch County is not a major crime area, Witt says it is not devoid of problems, either.

"It used to be where anyone could strap on a gun and suddenly they were a police officer," Witt says. "Not anymore. It's turning into a highly technical field."

He says just about all of the problems in Wasatch County can be attributed to drugs or alcohol, and traffic. Traffic-related problems have had a dramatic increase over the years.

"Thefts, traffic violations, almost anything that happens here can all be traced back to drugs or alcohol," Witt says. "Ten years ago we never had half this much traffic here, but I'm just thankful we don't have more problems because of it."

With three full-time deputies and a posse with 25 men, Witt says there are times when he could use even more help.

"This is a recreation area and it used to be easier, but now with all the winter sports we are going constantly all year round," Witt says.

The sheriff is not complaining, though. The excitement and variety of the job is what has kept him hooked.

"You never know what will happen," he says. "One minute you are saving someone's life or putting out a fire and the next you might be looking down the barrel of someone's shotgun."

There have only been two homicides in Wasatch County during the past 27 years, but Witt says the close calls are too many to remember.

"The worst things are family fights," Witt says. "You always get in the middle and more than once there has been a gun involved."

Notifying families of deaths has been the hardest part of Witt's job. He said there is no easy way to do that, and it is always a painful experience.

Along with his sheriff duties Witt has taught first aid in the county for the past 25 years. He has long been a swimming instructor for Red Cross.

"You don't just push around papers in a county that doesn't have a dense population," Witt says. "Here you do everything — budgets, fight fires, mob control, search and rescue — you have to be a jack of all trades."

While the office is the only law enforcement position that doesn't require prior training, Witt feels that it should be.

the Utah Department of Corrections (prison and parole) and eight years business management with Sears.

2) He is hard working, a proven effective administrator who can bring unity back to the sheriff's department and has close working relationships with statewide police and social service agencies.

3) He is innovative. During his administration he brought to the county such programs as 911, central dispatch, McGruff Safe House Program, bad check collection and prosecution, and an active reserve force.

4) He is concerned about efficient use of county resources; decreases in planning, overall criminal cases and administration; drug traffic and abuse; vandalism; lack of prevention programs; need for countywide patrolling.

5) He is responsive to citizen concerns and needs. He will continually upgrade and train the department to meet the increased need as a result of recreation and Jordanelle. He has previously, and will again, provide the quality law enforcement that you deserve.

6) He will stand on his record. He will provide honesty and integrity, and active, dynamic, dependable leadership. He will implement *service* as the governing concept of law enforcement.

Mike Spanos

Thanks

I want to express my sincere appreciation to those who made it possible that I might serve again as Sheriff. I pledge that in the next four years, service and integrity will be the governing concepts.

In response to the letter printed last week, the figures of the green flyers were those provided for me from the records of the County Clerk's Office. These figures were re-checked by me and others before printing. The figures are accurate and if anyone is interested or concerned, I will be glad to provide a copy of the printout that was given to me by the County Clerk's Office.

Again, thanks to all those who

Sheriff's Office Encourages Reports About Hungry Livestock

1-30-91

The Wasatch County Sheriff's Office is receiving about ten calls a week reporting livestock that appear not to be properly fed, according to Sgt. Lance Gardner.

It can be hard for a passing motorist to tell from a distance the condition of a horse or cow in a field, and sometimes it turns out that the animals are okay. Other reports prove to be well-founded and, as a result, sick and dying animals have received the care they needed.

But Gardner encourages people to report every case in which they suspect an animal is not being taken care of and assures that every report is investigated.

According to Dr. Lee Erickson, Heber City veterinarian, horses can get enough water from snow and can dig through the snow to get to the feed below, as long as there isn't a crust on the snow. They also can feed on what's available above the snow, like willows. But he said in zero degree weather, the snow should be scraped away to make the grass available or extra food should be provided.

Sheriff Elected Vice President of Utah Sheriff's Association

Wasatch County Sheriff Mike Spanos was elected second vice president of the Utah Sheriff's Association governing board last week during a training meeting of the organization.

Mike Spanos
Sheriff

EDD THACKER YOUR SHERIFF FOR THE "90's"

"My efforts, as your sheriff, have produced good results, by working to increase the efficiency of our local law enforcement department for the protection of Wasatch County"

- As a lifetime resident of Wasatch County I am acutely aware of our local law enforcement needs.
- I am TRAINED - EDUCATED - CERTIFIED and INFORMED !
- In the last four years, as your sheriff, the law enforcement needs of Wasatch County have been met. We now have a "Positive" attitude towards local law enforcement in Wasatch County. Better cooperation and communication with the following: Wasatch County Search & Rescue, Heber City Police Dept., Utah Highway Patrol, Department of Social Services, Timpanogos Mental Health, Drug & Alcohol, Wasatch County School District, the U.S. Forest Service, Midway City, State Forestry & Fire Control, State Parks, Wasatch County Fire District and Juvenile, district and circuit courts. THIS WAS NOT HAPPENING FOUR YEARS AGO.
- I have been successful in the "War on Drugs". Our department has successfully investigated, arrested and prosecuted drug cases every year which included: cultivation, distribution, transportation and the use of drugs. We continue to educate students and citizens with Drug Prevention Programs.
- The attack on crime is apparent. The number of burglaries and thefts have been reduced by almost half since I took office, saving the citizens of Wasatch County over \$100,000. Serious problems have been dealt with including: physical & sexual abuse of children, spouse abuse, bad checks and other criminal offenses.
- I am planning for the future needs of Wasatch County's law enforcement.
GROWTH - DEVELOPMENT - CHANGE
- I am not just a "9 to 5" sheriff. I have done and will do what it takes to get the job done.
- I am still " the right choice " November 6th.

Sheriff Edd Thacker

Sheriff's Office Encourages Reports About Hungry Livestock

The Wasatch County Sheriff's Office is receiving about ten calls a week reporting livestock that appear not to be properly fed, according to Sgt. Lance Gardner.

It can be hard for a passing motorist to tell from a distance the condition of a horse or cow in a field, and sometimes it turns out that the animals are okay. Other reports prove to be well-founded and, as a result, sick and dying animals have received the care they needed.

But Gardner encourages people to report every case in which they suspect an animal is not being taken care of and assures that every report is investigated.

According to Dr. Lee Erickson, Heber City veterinarian, horses can get enough water from snow and can dig through the snow to get to the feed below, as long as there isn't a crust on the snow. They also can feed on what's available above the snow, like willows. But he said in zero degree weather, the snow should be scraped away to make the grass available or extra food should be provided. 1-30-91

Sheriff Elected Vice President of Utah Sheriff's Association

Wasatch County Sheriff Mike Spanos was elected second vice president of the Utah Sheriff's Association governing board last week during a training meeting of the organization.
